

Proposed Section Announcement – Conservatorships & Guardianships

The Orange County Bar Association is considering the formation of a section dedicated to dealing primarily with conservatorship and guardianship issues involving both law and procedure, as well as the possible need for legislative action to address issues with no current resolution. It is contemplated that the section would be open for attorneys practicing in government offices and in private practice. The section would provide a forum to foster open discussions, networking, regular MCLE programming, and professional development.

OCBA member Ernie Hayward is heading up the initial organizational effort of this potential section.

In order to be considered for official OCBA section status, at least 25 members of the OCBA must indicate an interest in joining. To express your interest, please email info@ocbar.org

If sufficient interest is expressed, the organizers will seek approval for this new section from the Orange County Bar Association Board of Directors.
