PROGRAM

Who Should Attend?

Internet Users

Everyone from teens to senior citizens are on the Internet more now than ever - whether for work, school, personal banking, keeping up with friends and family or other social media purposes.

Why Attend?

Internet Vulnerability

With ever increasing internet use comes ever increasing vulnerabilities to the user - financial, social, reputational, legal. Some of these vulnerabilities come from simply not knowing laws regarding Internet use and others come from those looking to take advantage of unsuspecting users.

What You'll Learn!

Our distinguished panel will (1) discuss and explain laws that all Internet users should know; (2) highlight some particular Internet concerns for senior citizens and dependent adults [aging parents, grandparents]; and (3) discuss ways to ensure basic online safety.
