# Construction Challenges, Trends and Opportunities: *2023 and Beyond*

This presentation will discuss how the current conditions affecting the construction industry will impact legal issues. For the foreseeable future, the construction industry will continue to confront challenges due to domestic and global events - inflation, supply chain disruptions, labor shortages, energy prices - the list seems to grow every day. Organizations and law firms that anticipate and position to overcome these challenges will be one step ahead of their competitors. This presentation will help you learn what you need to know, and more importantly, what you need to do.
